Failure of an Owner or occupant to comply shall be grounds for legal actions which may include, without limitation, an action to recover sums due for damages an action for injunctive relief, and any combination of such actions.

In addition to all other remedies, in the sole discretion of the Board of Directors of the Association, a fine not exceeding \$100.00 per violation may be levied. Fines may be levied on the basis of each day of a continuing violation with a single notice and opportunity for hearing, provided no such fine shall exceed \$1,000.00 in the aggregate. Fines may be levied against an Owner, occupant, family, guest, invitee, lessee or employee for failure of an Owner, his family, guests, invitees, lessees or employees, to comply with any rule of the Association or with any provision of the Declaration or the By-Laws of the Association, provided the following procedures are adhered to:

(a) Recommendation. Based upon information before the Board at a duly noticed board meeting, the Board may recommend the imposition of a fine for a violation or continuing violation of the Association's rules or covenants against the Unit Owner and, if applicable, to any tenant, licensee, or invitee of the unit owner.

(b) Notice. The Association shall notify the Owner or occupant of the infraction or infractions. Included in the notice shall be a date, time and location of the next meeting of the Infractions Committee which hearing shall be scheduled at least 14-days after the date of said Notice.

(c) Hearing. The non-compliance shall be presented to a committee of the unit owners (the "Committee"), at which time the Owner or Occupant shall present reasons why the fine should not be levied. The Owner or Occupant may be represented by counsel and may cross-examine witnesses. A written decision of the Committee shall be submitted to the Owner or Occupant by not later than twenty-one (21) days after their meeting. If the Committee does not agree with the fine, then the fine may not be levied. If the Committee agrees with the fine, then the Unit Owner shall pay the fine within five (5) days after written decision of the Committee mailed to the Unit Owner.

(d) Members of Infractions Committee. The Infractions Committee shall consist of three (3) Unit Owners, who are not on the Board of Directors and are not officers, directors, or

employees of the association, or the spouse, parent, child, brother, or sister of an officer, director, or employee. The Board of Directors shall select the members of the Infractions Committee.

(e) Application of Fines. All monies received from fines shall be allocated as directed by the Board of Directors.

(f) Non-exclusive Remedy. These fines shall be construed to be non-exclusive and shall exist in addition to all other rights and remedies to which the Association may be otherwise legally entitled; however, any fine paid by the offending Owner shall be deducted from or offset against any damages which the Association may otherwise be entitled to recover by law from such Owner.

21. Advance scheduling of a move, departing or arriving, must be made with the Board at least one week prior to the scheduled move. At that time a refundable \$250 deposit will be required regardless whether it is a Tenant or an Owner who is moving. The Owner is responsible for their Tenants. The deposit is refundable within 30 days after an inspection is made and after no documentation of any damage is documented. Moving is not allowed on Sundays or Holidays unless previous arrangements have been made with the Board. The Owner is responsible for ensuring the elevator padding is up and the rug removed and put back. The Owner is also responsible for monitoring the move so that the elevator is not held up for long periods of time. Carpet runners or some type of protective material should be used from the truck to the elevator. Moving Vans are not allowed to obstruct entries, exits or walkways. The Owner is responsible for cleaning up the entryway, Foyer and elevator at the conclusion of the move. The Owner must make arrangement for the disposal of boxes and moving material. The trash chute is not to be used for this disposal.

22. Approved hurricane shutters installed to units shall always remain completely open, except when a local weather advisory is issued of a pending storm of tropical force winds or higher within 72 hours and raised once the threat has passed. A unit owner who plans to be or is absent during this time must designate a responsible person to handle the lowering and raising of the shutters.

23. Guests are not allowed to enter the building without authorized access. Doors are not to be propped open. Signs are not to be posted on the outside door system with instructions on how to gain entry. Owners will be responsible for their Tenants. Owners/Tenants should monitor the arrival and departure of their Guests. Codes, keys and FOB's should be monitored. Security codes should not be given to contractors. There is a \$25.00 charge for FOB and code changes.

24. Parking spaces are limited to two spaces per condominium unit. Additional outside parking spaces are limited. Arrangements can be made with other residents who are not using their spaces.

25. The use of electrical outlets in the garages will be limited to 20amps. If more electricity is needed the owner may have an outlet installed within their storage unit and hooked into their unit meter. Garages are limited common space and the Association pays for the electric. Cars or Golf Cart would be considered excessive and would be an example of having an outlet routed to the owners meter.

26. Vehicle Charging Stations. The installation of such charging stations is subject to the following provisions and those stated pursuant to Section 718.113, *Florida Statutes* (2022).

(a) The installation may not cause irreparable damage to the condominium property.

(b) The electricity for the electric vehicle charging station must be separately metered and payable by the unit owner installing such charging station. Unit owner shall reimburse the Association at the end of the 1st quarter, 2nd quarter, 3rd quarter, and 4th quarter for kilowatts used during that time. Unit owner shall provide documentation, either printed or photographic, showing kilowatts used. Reimbursement will be based on kilowatts used and the Association's kilowatt price during that time period.

(c) The unit owner who is installing an electric vehicle charging station is responsible for the costs of installation, operation, maintenance, and repair, including, but not limited to, hazard and liability insurance. The Association may enforce payment of such costs pursuant to Florida Statute Section 718.116.

(d) If the unit owner or his or her successor decides there is no longer a need for the electric vehicle charging station, such person is responsible for the cost of removal of the electronic vehicle charging station. The association may enforce payment of such costs pursuant to Florida Statute Section 718.116.

(e) The association shall require the unit owner to:

1. Comply with bona fide safety requirements, consistent with applicable building codes or recognized safety standards, for the protection of persons and property.
2. Comply with reasonable architectural standards adopted by the association that govern the dimensions, placement, or external appearance of the electric vehicle charging station, provided that such standards may not prohibit the installation of such charging station or substantially increase the cost thereof. Submit plans showing the dimensions, placement and appearance of proposed electric charging station.
3. Engage the services of a licensed and registered electrical contractor or engineer familiar with the installation and core requirements of an electric vehicle charging station.
4. Provide a certificate of insurance naming the association as an additional insured on the owner's insurance policy for any claims related to the installation, maintenance, or use of the electric vehicle charging station within 14 days after receiving the association's approval to install the charging station. Provide documentation to

indemnify and defend the association from any liability or damage incurred in connection with the charging station.

5. Reimburse the association for the actual cost of any increased insurance premium amount attributable to the electric vehicle charging station within 14 days after receiving the association's insurance premium invoice.
